## FIS Points List

3.1 Northern Hemisphere

The evaluation period starts the second weekend of November and ends 30th April. For races at Entry League (ENL) level the evaluation period starts from the 2nd weekend of October.

4.2.1.1 The average of the best results in each event during the past season will be used for the calculation of the BL list as follows:

- **Slalom and Giant Slalom: best three (3) results**
- Downhill, Super G, and Alpine Combined: best two (2) results.

4.2.1.2 During the past season period, competitors who have obtained fewer than three (3) results in Slalom or Giant Slalom or fewer than 2 (two) results in Downhill, Super G or Alpine Combined will be subject to the following adjustments:

- Slalom and Giant Slalom - two (2) results: Calculate the average of the two results and apply a 20% penalty to that average.
- Slalom and Giant Slalom - one (1) result: Add a 20% penalty to the single result, then apply an additional 20% penalty to the new total. Example: A single result of 48.00 ® 48.00 plus 20% = 57.60 ® 57.60 plus 20% = 69.12).
- Downhill, Super G, and Alpine Combined - one (1) result: Add a 20% penalty to the single result.

The category adder and minimum/maximum values will be published on each current FIS points list (1st page). Adder för level 2-4 (NC, FIS, ENL m.m.) är 8.

**5.3 The printing deadlines and validity dates are published on the FIS website. FIS Points List will be updated weekly. Publiceras tisdagar, giltig fr.o.m. torsdagar.**

## 696 Course and surface preparation

For all competitions listed in the FIS Calendar, the competition course should be completely prepared and race-ready before the first Jury inspection. It shall include all installations specified in the technical advisor's or homologation report, or as agreed between the organiser and the Technical Delegate (for Olympic Winter Games, FIS World Championships and World Cup the Referee or Assistant Referee) prior to the arrival of the teams. All the facilities (start, course, and finish area) must be completely prepared and ready for racing prior to the first Jury inspection. Competitions should be conducted on the hardest course surface appropriate to the race level. The Jury and the Organising Committee shall jointly ensure appropriate planning and management of weather and snow surface conditions, taking all relevant variables into account.

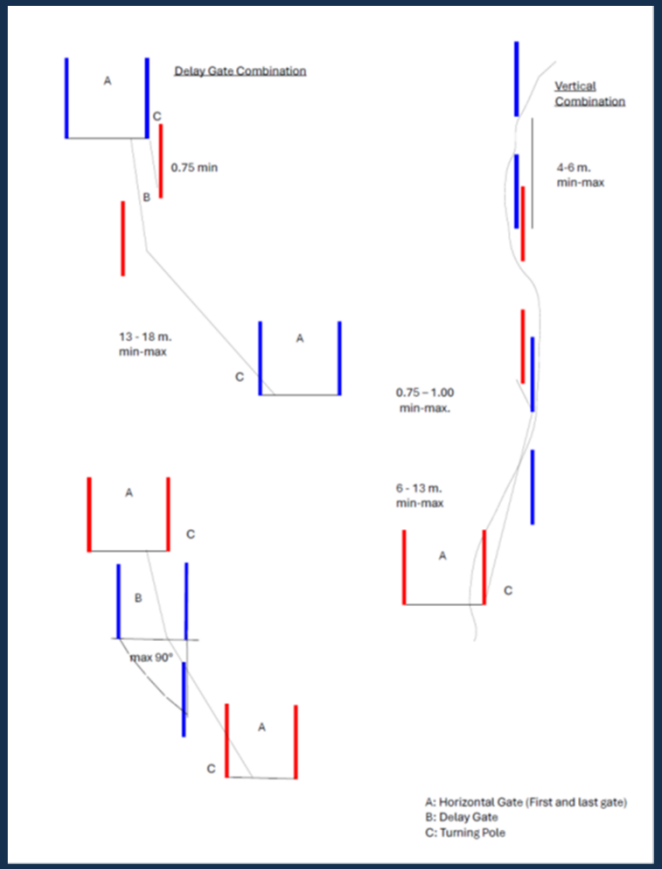

**Ersätter tidigare grenspecifika regler (Downhill 703.2, 702.1, 704.3, Slalom 802.1.4, Giant Slalom 902.2, Super G 1002.2)**

# Delayed Gate

801.2.3 A gate must have a minimum width of 4 m and a maximum of 6 m. The distance from turning pole to turning pole of successive gates must not be less than 6 m and not more than 13 m (valid for all categories). Exception U16 - U14 competitions:

- between 7 m and 11 m
- The distance between gates within combinations (hairpin or vertical) must be not less than 0.75 m and not more than 1 m. The gates in hairpin or vertical combinations must be set in a straight line. Delayed gates must have a minimum distance of **13 m** and a maximum distance of 18 m (U16 - U14 Competition 15 m) from turning pole to turning pole. The distance between the gates within a delayed combination must be not less than 0.75 m from either turning pole.

**A delayed gate combination must allow the athlete to ski through the combination without changing ski edges. The outside pole of the delayed gate must be positioned within a maximum 90° angle from the horizontal line relative to the turning pole and must not interfere with the racing line.**
